Poster Preparation:

1. Research poster: include a descriptive title, presenter(s) name(s), school affiliation, an abstract, introduction, materials, methods, and conclusions or results.
2. Non-research poster: include a descriptive title, presenter(s) name(s), school affiliation, an abstract, introduction, content, and conclusion.

Poster Content

1. Size: Posters should be no larger than 36x48".
2. Format:
 - a. Poster text should be well-labeled in a simple font (such as Arial or a sans serif style) legible from a distance of 4-6 feet. Avoid the use of fancy fonts for professional presentations. The effectiveness of a poster presentation can be enhanced greatly by inclusion of color, photos, and graphics where appropriate. A good poster presentation is organized, neat, eye-catching, and presents a clear message.
3. Posters often include the following components:
 - title of project (bolded and all-caps), author's name (as well as any coauthors and faculty advisors) bolded and mixed upper/lower case, and name of department/institution abstract or Introduction discussion or conclusions in relation to your research question(s) or hypothesis, written in user
 - Other points to remember: Use short sentences and simple words. Columns should be left-aligned rather than centered. Do not use acronyms, jargon, or unusual abbreviations. Tables and graphs should have any unnecessary information removed.
 - The poster should be self-explanatory, but don't load it down with large amounts of methodological details, or lists of references. Observers can ask you about these things directly.
 - Prepare a presentation of no more than 8-10 minutes (preferably 4-5 minutes) to quickly walk interested parties through your poster

Poster Judging

- Poster judging will take place in advance of the conference via zoom. All presenters should plan on attending and will be scheduled 1-2 weeks before FOTA22.

Pediatric

Presenting at FOTA22:
